
Wi-Fi at the library

Only the eduroam network is accessible in the library and across the FHS - an academic Wi-Fi network for students and staff from Charles University and other universities worldwide.

How to connect - 3 steps

- Set up your eduroam password in CAS
Go to the [Central Authentication Service \(CAS\)](#) , "Other Accounts" section ? "Set Password for eduroam realm cuni.cz" tab. The password must not be the same as your CAS password.
- Find out your username
Once you set your password in CAS, your username will appear in the format personalnumber@cuni.cz (the personal number is the number listed on your CU ID card).
- Connect your device
Select the eduroam network on your device and log in. Instructions for each operating system are provided below or you can try the [geteduroam](#) application.

		Don't have a verified password? You cannot set up an eduroam password without a verified CAS password. In that case, please visit the CU ID Card Service Centre in person.
